HUMANITARIAN BLOCKCHAIN SUMMIT

More soon!

THE PRESENT AND FUTURE OF BLOCKCHAIN FOR HUMANITARIAN APPLICATIONS

November 10th, New York

IT'S NOT

- A pitch competition
- A showroom for silver bullets and wizard tools
- A sales meeting
- A social impact fantasy gone off track
- A one-off talking shop

IT IS

- A safe space to exchange lessons learned
- A thoroughly vetted pool of humanitarian-minded solutions
- A learning experience
- A mix of humanitarians, corporate, researchers and students
- The beginning of a journey, and a new strategy

FOCUS

- Based on use cases \ Pilot cases
- Bridging corporate development, academic research & humanitarian strategies
- Drawing lessons learned
- Designing guidelines for future development
- Extracting policy for a human-rights based, ethical & principled implementation
- Data protection | Procurement | Governance | CBT | Logistics, & much more

Core Partners

- Fordham University
- Institute of International Humanitarian Affairs
- University of Leiden
- Center for Innovation \ Humanity X
- University of Northampton
- Center for Citizenship, Economics and Governance
- Digital Currency Summit
