605 Third Ave; New York, NY 10158

SPACE TECH 2024 seminar

Join us for the Space Tech Seminar 2024, an official side-event of the Summit of the Future.

Organized by the Office of Information and Communications Technology (OICT) and the Office for Outer Space Affairs (UNOOSA), this seminar will explore the latest advances in space technology and their impact on global sustainability and development.

Featuring key topics:

Space Exploration / Space Travel Innovations /
Space Medicine / Satellite Constellations /
Earth Observation Technologies /
Space Sustainability

Opening remarks by:

Mrs. Aarti Holla-Maini
Director, UNOOSA

Bernardo Mariano Jr.
Chief Information Technology Officer,
Assistant Secretary-General, United Nations
